

ALBERTO SERGIO

Uppsala, Sweden
alberto.sergio@slu.se

EDUCATION

Swedish University of Agricultural Sciences (SLU) Ph.D. Candidate in Economics, expected April 2027 Advisor: Rob Hart	<i>Aug. 2022–Present</i> Uppsala, Sweden
Ca' Foscari University of Venice Master of Research in Science and Management of Climate Change	<i>Sept. 2021–Aug. 2022</i> Venice, Italy
University of Verona M.Sc. in Economics, 110/110 cum laude	<i>Oct. 2019–Sept. 2021</i> Verona, Italy
Universidad de Salamanca Erasmus Exchange Programme	<i>Sept. 2017–Feb. 2018</i> Salamanca, Spain
University of Verona B.Sc. in Economics and Commerce	<i>Sept. 2015–Dec. 2018</i> Verona, Italy

VISITING POSITION

University of Maryland , College Park, MD, USA Visiting Ph.D. Researcher Host: Anna Alberini	<i>Aug. 2025–Apr. 2026</i>
---	----------------------------

RESEARCH INTERESTS

Energy Economics, Electricity Markets, Environmental Economics, Applied Econometrics

PUBLICATIONS

Sergio, Alberto and Francesco Pietro Colelli (2025). “Weather-Induced Power Plant Outages: Empirical Evidence from Hydro and Thermal Generators in Europe.” *Energy Economics*, 148, 108549. doi:10.1016/j.eneco.2025.108549

WORKING PAPERS AND WORK IN PROGRESS

Sergio, Alberto, Anna Alberini, and Francesco Pietro Colelli. “When Nuclear Falters: Electricity Trade, Gas Prices, and Energy Security in France.”

Sergio, Alberto and Anna Alberini. “Dunkelflauten vs. Abundant Renewables: What Are the Effects on Electricity Prices and Trade?”

Sergio, Alberto and Francesco Pietro Colelli. “Under Strain: Projecting Climate-Induced Capacity Losses for European Thermal Power Plants.”
Submitted to Nature Energy.

GRANTS AND SCHOLARSHIPS

Jan Wallanders and Tom Hedelius Foundation	2024
Hedelius Scholarship for doctoral research at the University of Maryland	SEK 349,000
	(approx. EUR 32,000)
Erasmus+ Mobility Grant	2017–2018
Study-abroad scholarship, Universidad de Salamanca	EUR 2,500

CONFERENCE AND SEMINAR PRESENTATIONS

Invited Seminars

BTU Cottbus-Senftenberg, Research Seminar	June 2026
<i>“Weather-Induced Power Plant Outages: Empirical Evidence from Hydro and Thermal Generators in Europe”</i>	
<i>“Dunkelflauten vs. Abundant Renewables: What Are the Effects on Electricity Prices and Trade?”</i>	
Center for MultiModal Mobility, University of Maryland	Feb. 2026
<i>“When Nuclear Falters: Electricity Trade, Gas Prices, and Energy Security in France”</i>	

Conferences

Nordic Annual Environmental and Resource Economics Workshop (NAERE), Stockholm School of Economics	June 2026
<i>“Dunkelflauten vs. Abundant Renewables: What Are the Effects on Electricity Prices and Trade?”</i>	
Mannheim Conference on Energy and the Environment, ZEW Mannheim	May 2025
<i>“Weather-Induced Power Plant Outages: Empirical Evidence from Hydro and Thermal Generators in Europe”</i>	
Annual Conference of the Italian Association of Environmental and Resource Economists (IAERE), Roma Tre University	Feb. 2025
<i>“Weather-Induced Power Plant Outages: Empirical Evidence from Hydro and Thermal Generators in Europe”</i>	
Nordic Annual Environmental and Resource Economics Workshop (NAERE), NHH Norwegian School of Economics	June 2024
<i>“Weather-Induced Power Plant Outages: Empirical Evidence from Hydro and Thermal Generators in Europe”</i>	

RESEARCH EXPERIENCE

Euro-Mediterranean Center on Climate Change (CMCC)	May 2022–Aug. 2022
Scientific Collaborator, ECIP Division	Venice, Italy

- Conducted econometric analysis of Italian household expenditure data combined with spatial data on climate, air pollution, and policy measures.
- Contributed to updating and calibrating the GTAP database for the ICES-XPS model.

Euro-Mediterranean Center on Climate Change (CMCC)*Research Intern, ECIP Division**Jan. 2022–Apr. 2022**Venice, Italy*

- Analysed Italian household expenditure and energy-consumption data, with a focus on household energy choices and building insulation.
- Collected and calibrated data on monetary transfers between governments and households for the ICES-XPS model.

University of Verona*Research Assistant in Environmental Economics**Mar. 2021–Apr. 2021**Verona, Italy*

- Contributed to a field experiment on climate-change education through data collection and cleaning, questionnaire design, and literature review.
- Assisted with the statistical and econometric analysis in Stata.
- Supervisor: Marcella Veronesi.

SKILLS AND LANGUAGES

Research software R, Stata, Python, MATLAB**AI agents** Codex and Cowork for coding, research, and workflow automation**Other tools** LaTeX, Windows PowerShell**Languages** Italian (native), English (C1), Spanish (B2), Swedish (A2)**TEACHING EXPERIENCE**

Swedish University of Agricultural Sciences (SLU)*Teaching Assistant, Methods in Economics**Sept. 2023–Present**Uppsala, Sweden*

- Led exercise sessions in econometrics, including limited dependent variable models, matching, instrumental variables, and difference-in-differences.
- Provided guidance and feedback to undergraduate students.

PROFESSIONAL SERVICE

Refereeing*Energy Economics; Reliability Engineering & System Safety***ADDITIONAL AFFILIATIONS**

Ca' Foscari University of Venice*Subject Expert in Economics (Cultore della materia)**Aug. 2023–Present***Euro-Mediterranean Center on Climate Change (CMCC)***Affiliate, Economic Analysis of Climate Impacts and Policy Division**Aug. 2023–Present***REFERENCES**
